The New InfoSoup – Saving Items to a List

To add an item to a list or create a new list, you need to first put the item in a cart. When you find the item you want, click or tap on the basket icon under Additional actions.

Once an item has been added to the cart, you will see a message that says "This item is in your bookcart." You can continue to search and add more items to your cart or click **view cart** to see the item(s) you have saved.

If you have not logged in to your InfoSoup account yet, you will be prompted to log in with your library card number and PIN. If you are already logged in, you will go directly to your cart. At the top of your cart, you will see the option to **Save to list**

When you select **Save to list** you will then have the option to **Add** to an existing list, or select **Save to new list** to create a new list.
