

OVERDRIVE PERIODICALS

WHAT ARE OVERDRIVE PERIODICALS?

OverDrive has partnered with NOOK by Barnes & Noble to make popular digital magazines and newspapers available for lending. Library patrons can browse and borrow digital magazines and newspapers all on the same OverDrive website as ebooks, audiobooks, and streaming video.

WHAT YOU NEED TO BORROW OVERDRIVE PERIODICALS?

All a patron needs to borrow periodicals is a valid library card, a NOOK account (no credit card information is required), the free NOOK app (available for all major devices, including iPhone, iPad, Android and Windows 8) or a NOOK tablet. Unfortunately, the NOOK app isn't available for Windows 7.

WHAT PERIODICALS ARE CURRENTLY AVAILABLE?

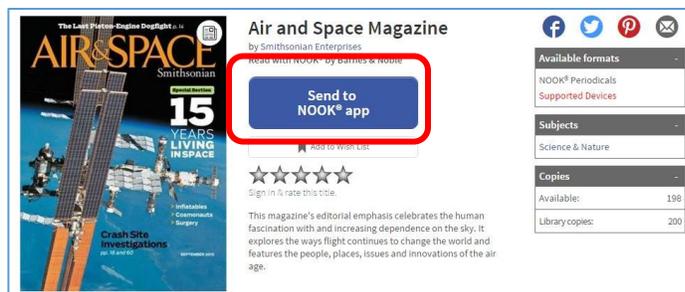

All currently available periodicals are listed on the Wisconsin's Digital Library site. To perform an advanced search for all periodicals, select "NOOK Periodicals" in the format field.

HOW YOU CHECK OUT A PERIODICAL?

In order to read OverDrive Periodicals, you must have a NOOK Tablet or have the free NOOK app installed on their iOS, Android, or Windows 8 device. Periodicals can be found by performing an advanced search on Wisconsin's Digital Library, and searching for format "NOOK Periodicals." Periodicals will also be integrated into keyword and subject searches as well. Once a title has been selected, the patron can click the "Send to NOOK App" button to check it out.

FROM SEARCH RESULTS

FULL TITLE INFORMATION

The first time the patron checks out a periodical, a message will display with information about what happens when a periodical is sent to the NOOK app. (Users can click a checkbox to keep that message from displaying every time they checkout a periodical.) The first time users check out a periodical, they will be asked to sign into their NOOK account. If patrons do not have an account, they will be able to create one at this time. Patrons will then select "Grant Access" and they will not be asked to either sign in or grant access again on future check outs. After the periodical is sent, patrons will be taken to the Periodicals History page, which displays a complete list of periodicals successfully sent to NOOK. To read the periodical, switch to the NOOK tablet or app and it will be available.

HOW LONG IS THE LENDING PERIOD?

Periodicals sent will stay on that NOOK account forever (unless they are manually removed). They do not need to be returned to the library, and there is no charge.

HOW DOES TITLE AVAILABILITY WORK?

For all periodicals, only the current issue is available, and each issue is allotted a certain number of checkouts. The number of available checkouts is displayed on the item record under ‘Copies’ on the right side.

The screenshot shows the OverDrive interface for 'Air and Space Magazine'. On the left is the magazine cover. The main title is 'Air and Space Magazine' by Smithsonian Enterprises, with a 'Send to NOOK App' button. A 'Copies' table is displayed in the center, showing 'Available: 198' and 'Library copies: 200'. On the right, there are social media icons and a sidebar with 'Available formats', 'Subjects', and 'Copies' sections. The 'Copies' section in the sidebar is highlighted with a red box, showing 'Available: 198' and 'Library copies: 200'.

Copies	
Available:	198
Library copies:	200

When the number of checkouts has been reached, the issue will no longer be available to patrons, and the record on the OverDrive site will display “Not Available” instead of “Send to NOOK App.”

ARE PAST ISSUES AVAILABLE?

No. Only the current issue of each periodical is available for checkout.

WHAT HAPPENS WHEN THERE ARE NO CHECKOUTS LEFT FOR AN ISSUE?

When the maximum number of checkouts for a periodical issue has been reached, a “Not Available” button will appear where the “Send to NOOK App” button would be.

The screenshot shows the OverDrive interface for 'The Wall Street Journal' by Dow Jones & Co. The main title is 'The Wall Street Journal' with a 'Not Available' button highlighted in a red box. Below the button is an 'Add to Wish List' button and a star rating section. On the right, there are social media icons and a sidebar with 'Available formats', 'Subjects', and 'Copies' sections. The 'Copies' section in the sidebar shows 'Available: 0' and 'Library copies: 10'.

Copies	
Available:	0
Library copies:	10

DO YOU PLACE HOLDS ON PERIODICALS ISSUES?

No. All the available copies are available simultaneously. Once the checkouts for the current issue are gone, the issue is no longer available.

CAN YOU RECOMMEND PERIODICALS TITLES?

Yes, you can recommend titles through the Recommend to Library feature of OverDrive, just as you would recommend ebook or audiobook titles.

WHAT SHOULD YOU DO IF YOU GET AN ERROR MESSAGE SENDING THE PERIODICAL TO THE NOOK?

If the periodical wasn't successfully sent to your NOOK account, go back to your Bookshelf (located in your Account on the Wisconsin's Digital Library site). From here, you can select "Re-send to NOOK app" to try again, or "Clear from Bookshelf" to remove it from their library account.

DO PERIODICALS COUNT AGAINST YOUR CHECKOUT LIMIT?

You must have at least one check out remaining to check out a periodical, but as soon as that periodical is sent to the NOOK app, it is removed from your checkouts. Periodicals sent to the NOOK app never expire or disappear, unless the patron manually removes them.

WHEN ARE NEW ISSUES OF THE PERIODICALS AVAILABLE?

New periodical issues in the digital library are released on the morning of the same day of their print release. This varies by publication.
